

## Macroeconomics with Macro Tools CD-ROM

Combining the best of traditional and modern approaches to macroeconomics, *Macroeconomics with Macro Tools* is the first book in the Intermediate market to genuinely fill the gap between the macroeconomics taught to graduate students and the macroeconomics traditionally taught to undergraduates. It begins with the traditional IS-LM and AD-AS models that have been the staples of undergraduate macro courses for decades. Then the second half of the book introduces newer, dynamic theories of macroeconomics, including various growth models. The result is a text that describes the emerging consensus view of macro.
