

Magic

G. K. Chesterton has been called the Prince of Paradox. His varied interests included journalism, philosophy, poetry, biography, fantasy and detective stories. Chesterton was a master of the play on words. Although his style is light his message is very serious. His commentaries on the social and morals of his time are quite revealing and as current today as they were then. Magic is a delightful three-act comedy first performed in 1913. Its theme is the theme of the play. The play begins in a misty woods with a cloaked stranger meeting a woman holding a branch and singing a strange song.
