

## Anti-Aging Ingredients for Cosmetics Formulators

The new 9th edition of Harry's Cosmeticology is available as a 3 volume set containing over 2600 pages of new information on the recent changes in the cosmetic and personal care industry. Chemical Publishing is now offering key parts of the title for those interested in a particular subject area covered in the book. Harry's Cosmeticology 9th Edition has developed a new line of Focus Books for this purpose. Focus books are a series of selected chapters that can be used as a reference guide for a particular subject area. This focus book covers: **TOPICAL RETINOIDS** - Author - Anand N.
