

Horatio Bottomley (Non-Fiction)

Horatio Bottomley was one of the most flamboyant characters of the twentieth century. From his inauspicious beginnings as a child in an orphanage, he made a series of extremely shrewd financial investments, went on to achieve Parliamentary success, and was reputed to have a mind to equal the finest legal brains in the country. From these dizzy heights he fell to sudden bankruptcy and the remainder of his life proved to be an eternal repeat of the cycle huge success (he was nearly included in the post-war cabinet) to complete ruin. In this superb biography, Julian Symons brilliantly captures all the irony and drama in the life of this remarkable man, and creates a very readable, and all-too-poignant story of success and failure.
